

Introducing the Latest Generation of EV Home Chargers

Add Up to 200 Miles of Range in 6-8 Hours of Home Charging*

TurnOnGreen EV700 is a state-of-the-art, plug-and-play fast home charging unit. This new level 2 charger is the perfect home solution for keeping your EV battery charged and ready to go. Compatible with most EVs on the road today, the EV700 is an affordable upgrade to your standard Level 1 charger.

All-Weather Design

The rugged metal all-weather enclosure makes the EV700 charger perfect for year-round indoor and outdoor use.

User Friendly Technology

The EV700's user interface makes charging at home simple and worry free. Plug in, charge up and go.

Fast Charging

Wall-mounted, compact, Level 2, plug-and-play, fast charging system ideal for all homes.

Save with Every Charge

Charging at night when rates are lowest is the easiest way to save money on recharging your battery.**

Compatible with All EVs

The SAE J1772 connector ensures compatibility with all EVs, including Tesla models.

Rebate Eligible

Save money through city, state and federal rebate programs.

Safety and Quality

Our charging systems maintain the highest standards in the market. Backed by a globally recognized certificate of safety and performance.

Worry-Free Guarantee

One-Year Limited Manufacturer Warranty included with purchase. Future-proof your purchase with a 3 year extended warranty sold separately.

*Estimates based on average level 2 charging times.

**Talk to your power provider about reduced rates at night.

Plug In

Universally compatible with EV models on the road today, making it the ideal charger for all EV drivers.

Charge Up

User friendly design makes it easy to charge an EV from the comfort of your home.

Go

Go anywhere, anytime with worry free, fast EV charging.
